👤 PROFILE

27 years old PHP developer with two engineering degrees, advanced English and 2 years of commercial experience.

Feel free to check my projects on GitHub.

🚀 SKILLS AND TOOLS

Im experienced in building MVC applications as well as REST API for SPA projects. My coding style is run by SOLID principles and OOD architecture.

As for frontend, I use VueJS to create interactive user interfaces.

PHP: Laravel 9, Yii 2
JS: Vue 3
Database: MYSQL, Postrgres
Container platform: Docker
Other: WebSocket, ElasticSearch

💼 WORKING EXPERIENCE

Back-End Architect   2020.06 - now
ProFermer

Im working on a web solution for large agrobusiness owners, made to help them in audit, different calculations and planning.
My main scope of work is to build database and whole project structure.

I joined backend team as a developer but after a year started to lead it

Full Stack developer   2021.01 - 2021.08
Quoka

I had a chance to take part in developing of a German large e-commerce platform
All my task were on frontend mostly, but I also had to fix some api bugs.
Despite good team and smooth SCRUM workflow (that I truly appreciate) I had to leave because it was 90% legacy code and kinda boring

Full Stack developer   2020.03 - 2020.05
Freelance

I really like this working experience because I had a chance to build an architecture and implement it myself
Technical requirement was to create a CRM system for hiring purposes with different roles and statistics board.
This task was successfully completed wit the use of my favourite technologies: Vue 3 and Laravel 8.

📰 EDUCATION

Along with programming skills obtained in university, I knew a lot from following courses:

Integrated study of PHP / B - diploma link
Professional PHP / A - diploma link
HTML/CSS course / A - diploma link
